

SAVE ME!!

Many orphans can be left a few hours to see if mom comes back...NOT OPOSSUMS!

If you see a baby like this one in a yard or anywhere, get it quickly in a little box or pet carrier with a blanket and keep warm and call a wild life rescue.

Momma opossum can have up to 13 babies.

As they grow, they don't all fit in the pouch so they ride on her back. If something startles her and she runs, one can fall off.

Momma doesn't know she lost one so please never ever leave one thinking mom will come back...
